University of Arkansas

ACTIVITY OBJECTIVES

At the conclusion of this activity, participants will be able to....

- ✓ Discuss changes in trauma care that have occurred over the last several years
- ✓ Recognize the challenges of a multi-system trauma patient and the need for assistance in navigating the healthcare system
- ✓ Identify the aftermath of trauma and the importance of patient/family advocacy within the hospital from a patient's perspective
- ✓ Discuss the importance of integrating family into the healing process and early recognition of Post-Traumatic Stress Disorder
- ✓ Recognize that an abused child is considered a multi-system trauma patient (polytrauma)
